

Club Assembly Report 2015 - International Chair

Following Peter's fantastic time as International Chair I feel it now falls to me to continue his good work.

It is therefore the intention to continue to support International projects such as Sightsavers, Smile Train, AquaBox, ShelterBox, Jaipur Limb and many others.

Over the last couple of years the Club has supported these projects as well as continuing the mammoth task of eradication of Polio through Rotary's own Polio Plus scheme. Rotary is so close to ending Polio in the world it just needs one final push.

The club will also continue the Twinning trips with Heerlan-Land van Rode and look to find a joint project in the near future.

It is also felt that following a year of disasters in the world, for example in Nepal, the club should be more proactive and be on the street immediately with the 'rattling of tins' instead of relying on the Charity Account to get money or help to these areas as soon as possible.

Hopefully you will all support me and the International Committee throughout the coming year.

Thank you
