### **All systems go for Rotary club**

Following the success of other Rotary clubs in Dorset, a random survey of Shaftesbury businesses and organisations indicated a willingness to enter into a partnership with Shaftesbury Rotary club.

This gives businesses a profile with a worldwide organisation, with local, regional and national exposure via Shaftesbury's newly launched website [www.shaftesburyrotaryclub.org](http://www.shaftesburyrotaryclub.org) with links back to their own website. In addition businesses can use the copyright partnership logo complete with certification, a door sticker, sign for their premises and approved strapline to their own advertising/marketing material if required.

Shaftesbury Rotary gained another corporate member when the club welcomed Simon Morgan, director of Wessex Group based in Longmead.

This grouping of major employers in and close to Shaftesbury is focused on seeing how their companies and organisation (that between them employ over 1,000 people) might be able to contribute to community life.
